

What You Should Expect From The Elite Course

The Elite Course aims to provide accelerated students with consistent, yet challenging material.

This Elite Course will test the students' overall knowledge of the course material on a weekly basis.

Students will attend weekly lessons and complete homework, exercises and quizzes which will enhance and reinforce their knowledge. Students who are part of the Elite Course will also be required to sit for the Elite Term Tests in their enrolled subject.

What Makes It Great

Intensive academic training allows students to broaden their knowledge of school subjects, providing them with a competitive edge over their peers. The course has also been created to encourage the maintenance of consistent top grades in school.

Through the Supplementary Mentoring Program, students can build their confidence in their own abilities by rising to the challenge and succeeding.

This course will provide invaluable study habits for students when entering senior high school and university.

What is Elite Course?

The Elite Course is a learning program offered to students who wish to study at an advanced level in the areas of English and Mathematics.

All students wishing to join the Elite course other than current or previous Elite course students need to take an entrance test and achieve the minimum entry score,

The Elite Course is revolutionary in its approach. Previously, the skills and knowledge required for success in the HSC were only developed in the final years of high school (Years 11 and 12). The Elite Course, however, focuses on building the foundations for consistent study habits at a younger age. Through a regular study program, this course allows students to keep ahead of the work and achieve their full potential.
