Set your child on the path to success!

Our Term 4 courses are specifically designed for Year 4 students who are aiming for **selective school placement or independent school scholarships**.

We know that early, focused preparation makes all the difference, and our courses are designed to give students a meaningful head start, laying the strong foundations they need to meet the demands of these challenging exams.

Through a rigorous yet engaging curriculum, our courses systematically sharpen students' abilities across all the critical areas assessed in selective and scholarship exams. Each lesson is thoughtfully structured to introduce and reinforce essential concepts, ensuring that students develop a deep and confident understanding that grows progressively throughout the term.

Every child has the potential to achieve extraordinary things, and our role is to equip them with the skills, strategies, and self-belief to make that potential a reality. Whether your child is just beginning to explore the idea of selective school or is already set on earning a scholarship, our Term 4 courses will provide the structured support and expert guidance they need to truly excel.

Enrol your child today and give them the competitive edge that will carry them confidently into their future.

Thinking Skills for Selective (Thursday)

The Thinking Skills for Selective course is specially designed to develop the critical thinking and problem-solving abilities that are essential for success in the selective school placement test and beyond.

We understand that the thinking skills component is one of the most demanding aspects of the selective school exam, requiring students to think quickly, logically, and independently under timed conditions. This course directly addresses that challenge by providing structured, targeted preparation that builds both skill and confidence from the ground up.

With a comprehensive focus on the thinking skills component of the exam, this course covers a diverse range of topics and equips students with the tools, techniques, and strategies needed to approach even the most challenging questions with clarity, creativity, and composure.

Through a carefully curated mix of engaging activities, thought-provoking exercises, and real exam-style practice, students will sharpen their ability to analyse information, identify patterns, evaluate arguments, and draw well-reasoned conclusions — all critical skills for excelling in the selective school placement test.

Course Overview:

- Through engaging activities and exercises, our dedicated tutors guide students to become confident and proficient critical thinkers, capable of tackling complex problems across a variety of subject areas.
- Students will develop strong analytical and reasoning skills, learning how to evaluate information, identify patterns, and draw well-reasoned conclusions — all essential abilities for the selective school exam.
- Effective problem-solving strategies are at the heart of this course. Students will learn structured approaches to breaking down complex questions and arriving at accurate solutions efficiently.
- As students progressively build their thinking skills throughout the course, they will gain a deeper sense of academic confidence and a greater ability to perform under exam conditions.
- This course is open to Year 4 students aiming for selective school placement and covers all the essential topics needed to excel in the thinking skills component of the test.
